PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer specializing in building scalable, high-performance web applications with modern JavaScript frameworks. Proficient in full-stack development with expertise in React.js, Node.js, Express.js, and MongoDB. Passionate about writing clean, maintainable code and creating exceptional user experiences through responsive design and performance optimization.

TECHNICAL SKILLS

Frontend Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Design

Backend Technologies: Node.js, Express.js, RESTful APIs, Server-Side Rendering

Databases: MongoDB, MySQL

Programming Languages: C++ , Core JAVA , JavaScript

Developer Tools: Git, GitHub, VSCode, Postman

Core Competencies: Full-Stack Development, Problem Solving, Code Review, Performance Optimization

PROJECTS

NotesWala – Notes and Study Material | *React.js, Node.js, Express.js, Tailwind CSS, MongoDB, Multer* | 2023

- Built a full-stack notes-sharing platform providing degree notes, PDFs, and question papers with secure user authentication and role-based access.
- Implemented file upload handling using Multer and optimized backend APIs with Express.js and MongoDB for efficient retrieval of large PDF collections.
- Designed a clean, responsive UI using React + Tailwind CSS, ensuring fast loading and smooth navigation across all devices.
- Added search & filtering functionality , improving content discoverability and reducing user search time by 50%

DriveFinder – Car Search & Rental Platform | *React.js, Node.js, Express.js, MongoDB, Mongoose, Multer* | 2024

- Developed a car rental website with dynamic listings, real-time search, and filter functionality for rental and emergency vehicles.
- Built an admin dashboard enabling secure car management(Add/Edit/Delete) with image upload support using Multer, integrated with MongoDB.
- Created modular APIs using Mongoose for car categories(Trip,Emergency,Agriculture,Construction, Heavy/Light Vehicles) improving maintainability.
- Implemented protected routes preventing unauthorized dashboard access and enhancing overall security.

Portfolio Website | *React.js, Tailwind CSS, Framer Motion* | 2025

- Designed and developed a modern, animated portfolio website showcasing projects and technical skills
- Implemented smooth scroll animations and transitions using Framer Motion for enhanced user engagement
- Achieved 100% responsive design across all devices with mobile-first approach using Tailwind CSS.

EDUCATION

Post Graduate Certificate Programme in Advanced Computing (PG-CPAC) (Pursuing)

CDAC (Centre for Development of Advanced Computing) | 2026 – Present

Rajarshi Shahu Mahavidyalaya, Deolali Pravara

Master's Degree in Computer Science/Technology

Rahuri, Maharashtra

2023–2026

ACHIEVEMENTS & CERTIFICATIONS

- Recognized as Module Topper in PG-CPAC course for **Data Structures & Algorithms (DSA) and Core Java** modules.
- Earned certification in **C++ and Data Structures using Java** from **Career Credentials**.
